

## Audio Sample Instructions

Choose one of the two options to submit your audio recording sample. Please remember, your application will not be complete until your sample is submitted.

### Option #1: Record an audio sample of yourself explaining why you wish to be the Made to Lead podcaster.

Share with the listeners who you are, how your experiences make you the best person for the job, and what you hope listeners will gain from you if chosen. Please keep your audio sample to 5 minutes or less.

For assistance, here is a link to provide some guidance on creating a standard storytelling podcast episode: <https://www.podcast.co/create/podcast-storytelling-101>. Please note, you are not required to follow the standard structure recommended. And, it is acceptable but not required to include music in your sample.

If needed, you can reserve private recording space and/or borrow equipment from the Media Commons in the Undergraduate Library. <https://www.library.illinois.edu/mc/>

### Option #2: Submit previous work done from another podcast.

If possible, please choose a sample that is no longer than 5 minutes. For longer sample, please note you may be asked to provide timestamps for a section of the sample you would like submitted as part of your application.
